2003-2004 Seminar Series

Virtual Private Network for UNBF

By

Michael Jewett

Michael Jewett is a Network Analyst with the Communications and Network Services group of ITS. He is currently working part-time on his Masters of Computer Science. Michael is taking CS6993: Internship Course, while working for ITS. One of the requirements for this course is to do a few presentations on the different areas Michael has worked on during the fall months.

Monday, December 8th, 2003
3:30 - 4:30pm
ITC317

Privacy and security has become a great priority for the computer world over the past few years. Michael will talk about the different ways ITS is using Virtual Private Networks (VPNs) to secure administrative functions, wireless users and to provide services to users at home or on the road which they would normally not be able to access.

STUDENTS ARE ENCOURAGED TO ATTEND
