Software Architectures - Perspectives on Research and Education

By: Sascha Alda

Abstract:
This presentation will give an overview of my current research activities in the area of modern software architectures. Besides, a short overview will be given, how software architectures are taken into consideration in our curriculum at the Software Engineering Group at University of Applied Sciences in Bonn.

Speaker Bio:
Sascha Alda works as a Professor of Computer Science at the University of Applied Sciences in Bonn since 2010. His main areas of interests in both research and education are software engineering, and software architecture. Before his academic career, he worked for various IT companies in industry such as IBM and Accenture. Sascha Alda received his doctoral degree at the University of Bonn (2006) and obtained a diploma in Computer Science at the University of Koblenz (2000).
