Fall 2003

Assignment # 4

Due: 10:00 am, Monday Nov. 10, 2003

All questions from Recktenwald, Numerical Methods with MATLAB (NMM), Chapter 9. Be sure to show your work, incl. MATLAB statements used.

1. Exercise 5
2. Exercise 14
3. Exercise 22
4. Exercise 35 (note that the headers to `cucon1.dat`, `cucon2.dat`, and `cucon3.dat` incorrectly specify temperatures in Celcius; the temperatures in the first column are actually in Kelvin)
